Anne Manuel of Human Rights Watch/Americas just called David Passage this morning and stated the following. She indicated that General Rodolfo Robles, who she said has been critical of Vladimiro Montesinos, was abducted outside his home this morning (11/26) at approximately 10:15 am. The abduction was reportedly carried out by armed men, in civilian clothing, who were driving two cars with smoked glass. Anne Manuel asked that Embassy Lima make a "demarche" at the highest level possible and with the greatest speed possible inquiring about Robles' situation. David Passage asked that I pass this info along to you and indicate that an inquiry would be appropriate. I will also follow-up immediately with a phone call to the Embassy to confirm that you've received this message. I do not know anything else about the situation nor have I received info concerning it from another source at this time.
